

THANK YOU!

We have started the free vaccination drive for our children's parents. We are administering about 150 vaccines a day in all our schools. And, of course, we are vaccinating all our teachers and their families. We believe this is the only way we can protect our children. We thank Address Health for partnering with us and making this happen. The registrations of all are being managed by our alumni. We will go from school to school till 100% of our parents and their relatives, our teachers and their families, our alumni & their families are vaccinated.

This drive is possible because of your support. We want to thank each one of you!

"We are in the midst of our free vaccination drive. Today we had about 160 people from the slums vaccinated in Koramangala. We also had our alumni coming in for the vaccination. Not the ones who are working but those that are still studying. Here I am with Nadia, studying 3rd year BCom in St Joseph's College and Vijaya, 3rd year BSc in Christ College. They are grateful that we remembered them during the vaccinations. How can we not? They are family & we want to vaccinate all those we can to make our planet free of the virus."

There is a lot happening at our schools :)

Our Boys Football Club charges ahead!

At this year's BDFFA – Super Division League 2021, here's how the Parikrma Football Club (A Division Club) performed and we are at the top two position :)

Learning about agriculture - live classes!

Students of Uranus are learning crop production, management. Two of our teachers are in their villages and they have agricultural lands. We decided to take the students of all 4 schools on a virtual field trip to the farms to see some agricultural practices being performed live.

Special online fitness classes

Making sure our children (and their parents, who most often join in) get their dose of exercises everyday... special Zumba classes.

GYLS training

Uday and Joyce, former Global Youth Leadership Summit attendees participating in a pre-schedule workshop conducted by the GYLS team this month. Every year, two Parikrma students are selected among others across the country to attend the GYLS.

Blog by Shukla Bose

All schools must be mandated to take the responsibility to vaccinate their teachers before schools resume if we are to avoid the third wave of the pandemic. Teachers are our frontline Covid-19 warriors for the future – expresses founder Shukla Bose in her new [blog](#) piece.
