ANNUAL REVIEW 2022-23

PARIKRMA IMPACT 2022

ZERO SUICIDES

When Parikrma began its schools in 2003, one of the critical issues faced was the suicide rates in the slums we work with. **We are proud to say that the number of suicides has decreased to zero** because of our ongoing counselling of students and families, despite the turbulent years we all faced because of the pandemic.

SUCCESS OF NIOS PROGRAM

We launched the NIOS program a couple of years ago for some of our **students who have challenges following the regular curriculum but have extraordinary talent** in art, music and a few different subjects. We believe that all children have unique skills and should not be straight-jacketed to follow a pattern that discourages them and affects their self-esteem.

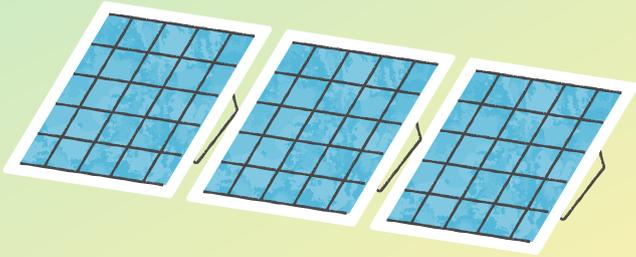

Impact: We recently distributed certificates to our students who did amazingly well in the **Board exams with 100 percent pass.**

CLINIC ON WHEELS

IndiaAssetz and the **Parikrma Foundation** launched **Prana – Clinic on Wheels:** a primary augmented neo-medical aid. The model (with six beds) will serve as a **Mobile ICU with oxygen support** – the facility has already been used to **vaccinate** hundreds of children and families from the slums. The mobile clinic will service thousands living in over **110 slums in Bengaluru**—a big shout out to Sai Narain and Selco Foundation.
