Foundation

This giving season, we need you!

Fund laptops for teachers!

A recent award-winning research (2023) on Parikrma Humanity Foundation's impact by Brandscapes Worldwide states:

- At Parikrma, students can easily understand the subjects taught due to blended learning and detailed explanations by teachers. Subjects with hands-on learning and a practical approach are found useful and liked because they have a higher rate of understanding.
- Parents see technology adoption and constructive pedagogy as key differentiators for Parikrma

During the challenging years of COVID-19, we ensured uninterrupted learning by empowering our children with hand-held devices and providing comprehensive teacher training and community support. Today, Parikrma has successfully transitioned to a fully blended learning model with technology at its core. This transformation was made possible through extensive training on new technologies and applications for our teachers and converting most of our classrooms into a blend of digital (projectors) and traditional learning spaces. This shift to technology has significantly enhanced student engagement and interactive learning experiences, paving the way for an optimistic future in education.

We have adopted technology to advance learning goals, and aid informed decision-making, donor management, and governance. To ensure better documentation of our success and that of our children, we use software offering longitudinal data on students and the community to evaluate individual child performance, in-house analysis of new academic research, and community development.

Current requirement:

Our teachers hold sessions with students and mentors from across the globe. They also have access to digital learning and teaching modules and software, which enhances their ability to engage and educate our students.

However, many of our teachers, with new teams joining us this year, urgently need laptops. These laptops are tools for teaching, preparing engaging sessions for children, and collecting crucial data and insights on the children's performances. Many of the previously donated/refurbished laptops are in poor condition. We urgently need to replace a few and provide better laptops to all our teachers.

Our current need is for 25 laptops in good condition. We have provided the details and costs below.

REFURBISHED LAPTOP SPECIFICATIONS	
Dell/Lenovo/HP Business model	<ul style="list-style-type: none">• Intel i5 processor, 9th or 10th Generation• 16 GB RAM• 512 SSD, 14-inch display• Windows 10 64-Bit Operating System• MS Office• With power adapter
COSTING	
Cost for each laptop	₹ 25,000 (\$296.21)
Cost for 25 laptops	₹ 6,25,000/+GST@18%
Total Cost	₹ 7,37,500 (\$8738)

Your past support has been invaluable to us, and we are deeply grateful for your contributions. Your continued support towards meeting our current need for 25 laptops would significantly impact the quality of education we provide. We appreciate your ongoing commitment to our cause.
