### On the global & national platform

Founder Shukla Bose was one of the speakers who shared experiences and discussed creating new paths and definitions of success at the recently held INKTalks Annual Summit on Redefining Success.

"Our legacy of service is at the heart of who we are. We were honoured to host Shukla Bose from the Parikrma Foundation, whose mission to transform education for disadvantaged communities in Bangalore, aligns closely with our own heritage." - St Margaret's School., UK, where Bose was invited to speak.

"I was delighted to give a TEDx talk at Lawrence School Lovedale. The students had done a marvellous job in organizing it. I believe that such experiences are the best leadership training models that will have lasting impact on children. I took the opportunity to talk about how quality education should not be the privilege of only a few." - Shukla Bose

### Great Place to Work!

For the 6th year in a row – Parikrma gets Certified™ by Great Place to Work.

The prestigious award is based entirely on current employees' experience working at Parikrma.

This year, 91% of employees said it's a great place – the highest in the past six years.

### Stories of hope

Veena from our 2016 batch - She could not complete her PU course because of her family situation. She had to get married to be less of a burden to her family. She now has a child. She heard of our [#ComeBack](#) program, where we invite all those who could not complete their studies to rejoin and restart with our support. She will complete her PUC, take a Montessori training course, and become a teacher. Parikrma believes that learning must never stop and all girls must be financially independent. Here's pledging all our support to girls like Veena—salute to Veena's grit and resilience.

### Thank you, SBIL

"What differentiates a privileged child from the underserved is not the clothes they wear or the language they speak but the exposure they get. In Parikrma, we do our best to reduce the gap by giving our children the best exposure possible with all our limitations. This is where our well-wishers can support us. We are grateful to SBIL for inviting some of our children to Delhi to meet and greet the Indian cricket team. This is our little children's dream come true. They also got to do sightseeing in the capital city. None of their parents have ever travelled outside Bengaluru. These kids will come back with great ambitions and aspirations. They will also come back as confident as the privileged." - Dr Shukla Bose
